EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering

Government College of Technology, Coimbatore
2023 – 2027 | CGPA: 7.55/10 (up to 5th Semester)

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript

Frameworks: HTML, CSS, React.js, Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Cloud & Deployment: AWS EC2, AWS S3, AWS CloudFront

Authentication & Security: JWT Authentication, Google OAuth, OTP Verification, Role-Based Access Control

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Tools & Platforms: Git, GitHub, VS Code, Postman, Android Studio

PROJECTS

Smart Expense Intelligence Platform (SEIP)

Financial Analytics & Decision-Support Platform

Technologies: MERN Stack, JWT, Google OAuth, Recharts, Tailwind CSS

- Developed analytics dashboards using MongoDB aggregation pipelines for expense tracking, budget monitoring, and category-wise analysis
- Implemented smart insights and forecasting features to identify overspending patterns and support financial planning
- Integrated secure authentication using JWT and Google OAuth with protected APIs and validation middleware
- Built real-time financial reporting dashboards with interactive visualizations and UPI-based transaction workflows

Voting System – Secure College E-Voting Platform – ([Live Demo](#))

Cloud-Deployed MERN Application

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, AWS EC2, AWS S3, CloudFront

- Implemented JWT authentication, OTP verification, referral-based validation, and one-vote-per-student enforcement
- Developed automated election scheduling with time-based voting and scheduled result publication
- Built an administrative dashboard supporting candidate management and Excel-based voter registration for 100+ students
- Deployed frontend and backend services using AWS EC2, S3, and CloudFront for scalable cloud hosting

Smart Play Bank AI (DCKAP Incubated Project)

- Selected for incubation at the DCKAP Incubation Centre through a competitive multi-stage evaluation.
- Designed an AI-powered financial literacy platform for children featuring virtual banking, AI mentor, parent dashboard, and gamified learning.
- Conducted research, market validation, competitor analysis, and system architecture design to support product development.

INTERNSHIP

Data Analyst Intern @ Bluecode

May 2026– June 2026

- Developed interactive dashboards using Excel, SQL, and Power BI.
- Performed data cleaning, transformation, and SQL query optimization.

POSITIONS OF RESPONSIBILITY

Treasurer – Computer Science Engineering Association (CSEA)

Feb 2025 – Present

Government College of Technology, Coimbatore

- Managed budgeting and financial records for department events involving 300+ students
- Coordinated with organizing teams to maintain transparent expense tracking and reimbursement workflows

Treasurer – Literary Debating Society (LDS)

Mar 2026 – Present

Government College of Technology, Coimbatore

- Handled budgeting and financial planning for literary and debating events
- Maintained expense records and supported financial coordination for society activities

CERTIFICATIONS

Cloud Computing Fundamentals – IBM Skills Build |
NPTEL – The Joy of Computing Using Python (Elite, 84%)

ACHIEVEMENTS

- Selected for the DCKAP Incubation Centre (2026) for Smart Play Bank AI through a competitive multi-stage evaluation.
- Built and deployed multiple full-stack web applications using the MERN stack and AWS cloud services.
- Developed secure authentication systems using JWT, OTP Verification, and Google OAuth.
